Beijing Sideways helps you to explore Beijing and its surroundings from a sideways view, seated in the side-car of a motorbike.

Avoiding traffic jams, enjoying the pleasures of a roofless vehicle, wind in the hair (or in a helmet), admiring the stunning, hilly landscapes of Beijing, savouring a French picnic on the crest of the Great Wall, cruising the less known hutongs and markets...

With Beijing sideways, you enjoy the company of an expat insider who has been living in Beijing for years, guiding you in your exploration. What's more fun than taking a ride in this vehicle that appears to be straight out a black and white movie?

Beijing Sideways Off the beaten tracks!

Beijing Sideways provides you with a sideways look of China, Beijing and its surrounding.
Aboard our vintage 1930's style sidecar motorbike, we show the Beijing we love, without the crowds.

This form of transportation allows us to be very flexible with our exploration, stopping easily whenever necessary, a very close proximity with the city and countryside where you can «almost touch» anything you see, but above all it's a sightseeing wonder! Did we mention it's extremely fun?

OUR TOURS

Beijing is the city of contrast, one foot resolutely engaged in the future and yet so much to remind us of a recent past. Seat comfortably in one of our sidecars and let one of our insider unravel it for you from modern skyscrapers to old hutongs, or experience the famous Great Wall differently with our Wild Great Wall tour.

- 2-HOUR BEIJING BY NIGHT

Enjoy the lights of our city!

A two-hour ride including Houhai, Gulou, hutongs, Nanluo guxiang, the Opera and the Olympic stadium. And the most exciting part: a magic stop in the Forbidden City Gate, perfect time to pop up a chilled bottle of champagne *WITH THE CHAMPAGNE OPTION*.

- 2-HOUR OR 4-HOUR BEIJING IN A NUTSHELL TOUR

Who could believe we can apprehend the city so well in so little time?

Staying only for a few days in the capital? don't lose your precious time in traffic jams or digging in a guidebook. Beijing Sideways shows you the must do and much more

If you stay in Beijing longer, those tours are perfect to have a first impression about the city, decide where you want to spend more time and learn a few tips from our insiders.

- ONE-DAY BEIJING AT A GLANCE TOUR

A grand day out in Beijing!

Enjoy an entire day in the capital to see both new and old China. Explore the antique parts of the city driving through the ancient wall, Houhai Lake and many hutongs. Stop for a cup of tea at Gulou next to the Bell Tower before heading to some street market or Panjiayuan flea market (weekends only). Visit the most impressive Beijing imperial temples: Tian Tan (The Temple of Heaven) with joyfull Beijingers. You will also have some time to walk around the Summer Palace before heading to the Olympic sites. During the ride, you may have the chance to see much more: the new National Opera Theatre, the CCTV Tower, Confucius Temple, the White Pagoda, or even Jingshan Park (the charcoal hill) to admire the Forbidden City from the summit.

- ONE-DAY WILD GREAT WALL TOUR

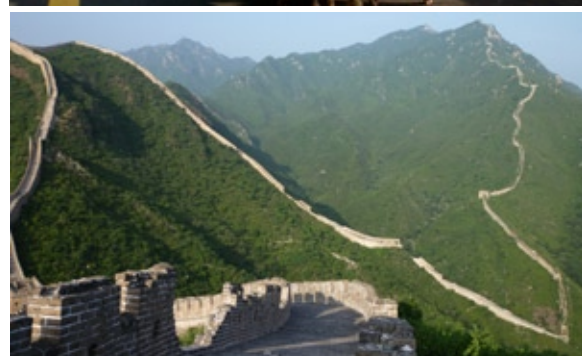

Hiking the Wild Great Wall and cruise the countryside

We are not only taking you to see the Great Wall, but you will also enjoy the panoramic ride in the mountains to the North of Beijing and stop at the Silver Pagodas, a site of majestic beauty with quite a Zen feeling. The ride will take you through some small Chinese villages until arriving to the Great Wall near Huang Hua Shang or Shengtengyu far from the crowds of tourists. Once arrived get your walking shoes on and start hiking up. And to reward your efforts, have a quality time savouring a French picnic on the top tower with view over the many branches of the surrounding wall.

Let's make the most of it! and sleep over at the GW!
